

ELECTRONIC BALLOTS FOR TECHNICAL HIGH ANGLE ROPE RESCUE STEERING COMMITTEE WORK

ADM 4

Purpose: To expedite the timely and efficient processing of Technical High Angle Rope Rescue Steering Committee issues.

Scope: To address the use of electronic ballots to conduct committee business.

Guidelines: An electronic Ballot (See ADM4 page 2 of 2) may be used to solicit committee members' decisions on matters that are of some urgency and where it is impractical to call a meeting to deliberate the issue. This could include but is not limited to the acceptance of replacement or additional instructors from eligible fire departments where a decision is necessary in order to accommodate them within the course schedule.

The results of an electronic ballot will be made available to the committee members upon the close of the balloting period.

PLEASE NOTE, THIS FORM IS ONLY TO BE USED IF THE ELECTRONIC BALLOTING SYSTEM INTEGRATED INTO THE THARRP PORTAL IS UNAVAILABLE. THE FORM BELOW WILL BE SENT TO STEERING COMMITTEE MEMBERS DIRECTLY AND SHOULD NOT REPLACE THE PORTAL VOTING PROCESS OTHERWISE.
